

Greetings
ENF Rangers
Earth Day Celebration

April 20, 2019

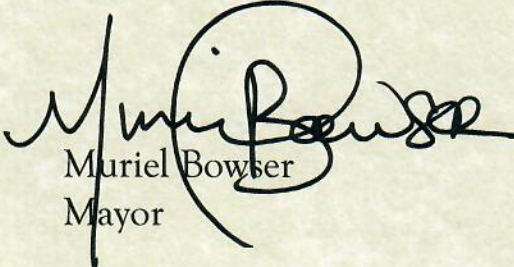

As Mayor of Washington, DC, it is my pleasure to congratulate Allen & Denise Burris and the Earth's Natural Force Rangers on your inaugural Earth Day Celebration!

Since the formulation of the ENF Rangers, your organization has worked to teach youth about their responsibility to care for and protect the environment. Through teaching the importance of trees, recycling and renewable energy, and most importantly teaching how good practices can positively affect their health and that of their fellow "Earth-Mates," ENF Rangers are doing exemplary work.

I am #DCProud of your accomplishments, and your goal to heighten the consciousness of young people to take care of their neighborhoods, schools and communities fits right in with our city's goal of being the greenest city in the nation!

Once again, on behalf of the 700,000 and growing residents of Washington, DC, congratulations—I hope your Earth Day Celebration is enjoyed by all!

Muriel Bowser
Mayor
